Grp./A.U.: 3671

Specification Amendments

This amendment complies with the revised 37 CFR 1.121 (1) - Amendment by instruction to delete, replace, or add a paragraph by submitting only a marked-up version showing changes made.

Also, this amendment is based on the assumption that the specification amendment previously requested with the RCE has already been entered.

1. Location:

Section heading: Description of Picking Rake version I

A. Paragraph 2 (c)

Please amend paragraph 2 (c) as follows:

c. Pick-up handle bar 100-6L, also sometimes referred to as a hand grip or grip handle, is a handling member that comprises two sections. One section, 100-62L serves as a handle grip while another section, 100-60L, serves as the attachment point for a gripper 106. A gripper is sometimes referred to as a resilient member. The angle between...

B. Paragraph 3 (c)

Please amend paragraph 3 (c) as follows:

**RECEIVED**

APR 20 2004

**GROUP 3600**

c. Pick-up handle bar 100-6R, also sometimes referred to as a hand grip or grip handle, is a member of basically the same size...
